EDUCATION

Pursuing - BTech. Computer Science and Design Sept 2025 – March 2029
Madhav Institute Of Technology & Science, Gwalior

SKILLS

- **Programming Languages** - Java, Python, C++ , JavaScript
- **Web Development** - HTML, CSS, JavaScript, Next.js (Learning), FastAPI (Learning)
- **Backend Development** - REST APIs, JWT Authentication, SQLAlchemy
- **Computer Science Fundamentals** - Data Structures & Algorithms, Object-Oriented Programming
- **Tools & Platforms** - Git, GitHub, Linux, VS Code
- **Areas of Interest** - AI Systems, Software Engineering, Backend Development, Cybersecurity

Achievement

LeetCode Profile – 50+ Problems Solved

Hackathons

Winner, HackIgnite'25 (College-Level Hackathon) for developing Mediva.AI, an AI-powered healthcare solution focused on improving medical assistance and accessibility.

Projects

Mediva.AI - AI Health Chatbot

- Built a full-stack healthcare assistant that uses Gemini AI and fuzzy symptom matching to predict diseases, provide personalized health recommendations, and support symptom tracking. Integrated AI chatbot, doctor locator, medicine information lookup, and environmental risk analysis through a responsive web application.
Tech Stack: Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, Gemini API, Axios, REST APIs, JSON.

Research Interest

- Machine Learning & Deep Learning, Edge Computing
- Cyber Security
